Pharmacy

Pharmacists can offer clinical advice and medicines for a range of minor illnesses, such as coughs, colds, sore throats, tummy trouble and aches and pains. The pharmacist will let you know if you need to visit a doctor or direct you to other healthcare professionals to make sure you get the help you need. You can also buy medicines for minor illnesses or first-aid supplies in a pharmacy or supermarket; to find the nearest pharmacy, go to: <https://www.nhs.uk/service-search/pharmacy/find-a-pharmacy>.

GP practice or medical centre

A GP can offer medical advice, provide a diagnosis and prescribe medicines. They might be your first point of contact for many physical and mental health concerns. The GP practice is also responsible for coordinating and managing your long term healthcare and they can refer you if you need more specialised hospital services. It is best to register with a GP practice to meet your ongoing health needs. www.nhs.uk/register
